- [Items](#)

## Overview

---

- The Auction House is a place for buying and selling items. There are many different categories, each contain every marketable item currently for sale
- When you have selected a category to browse, you can view the items as well as their prices. You can use a series of [Commands](#) to buy items, and to interact with the Auction House
- When selling items, you must do this from your inventory, using the Money Bag icon

## Commands

---

The commands for this section can be found [here](#)
